A man with long dark hair and a beard is smiling. Overlaid on the image are several digital elements: a green line graph with a red dot and the text '+212%' and 'qualified leads'; a dark grey chat bubble with a profile picture of a woman, the name 'Ask Kasim', and the text 'AI simulation - trained on doc material'; and a dark grey box with the text '38 calls' and a calendar icon. Another dark grey box contains the text 'What' and 'Simple: I diagnose your busi... install AI and Google Ads sy... that actually convert, then a... the operations so it doesn't... depend on you. Test. Scale... Automate.'

38 calls

Ask Kasim

AI simulation - trained on documented material

Simple: I diagnose your business, install AI and Google Ads systems that actually convert, then automate the operations so it doesn't all depend on you. Test. Scale. Automate.

What's the program?

Is it worth it?

Homework checklist

Requirement	Delivered	
Brief: one offer, one audience, one action	Section 1 of this document	✓
Offer defined with Hormozi's Grand Slam Offer	Section 2 (audience, problem, solution, bonuses, guarantee, MAGIC name, scarcity & urgency)	✓
Inverse interview: 20 questions answered	Section 3	✓
Copy for every section written before building	Section 4	✓
One logo and favicon	Gradient "A" mark + favicon (SVG + PNG)	✓
Colour palette of 2–3 colours	Ink #07090B · Lime #7CE040 · Violet #5B6CFF	✓
One font pair from Google Fonts	Space Grotesk + Inter	✓
At least 3 images, AI-generated or licensed (never Google Search)	3 AI-generated images + course-provided portrait	✓
At least one icon set	Lucide (single consistent set)	✓
At least 8 sections	10: hero, social proof, problem, how it works, benefits, more social proof, offer, guarantees, FAQ, final CTA	✓
Preview URL + prompts + assets	Cover page, Section 6 (prompts), Section 7 (assets)	✓

1 • The brief

One offer	The Predictable Pipeline Accelerator — a 90-day, done-with-you program that installs AI-powered Google Ads plus lead automation.
One audience	Founders of service businesses and small agencies doing ~\$10k–\$100k/month who run Google Ads and handle leads by hand.
One action	"Claim my seat" (email in the hero, application form in the final CTA).
Founder	Kasim Aslam — founder of Solutions 8 (Google Ads agency), author, growth strategist.

2 • The offer (Grand Slam Offer)

Audience	Service founders & agency owners, 1–20 people, \$10k–\$100k/month, already spending (or ready to spend) on Google Ads.
Problem	"I'm spending thousands on ads and still can't predict next month's clients."
Solution	Diagnose → Install AI + Google Ads → Automate & scale, in 90 days, with live coaching from Kasim.
Bonuses	AI Lead Automation Hub (Claude Skill + MCP) · "Ask Kasim" AI CEO mentor · Private founders community.
Guarantee	Unconditional: 14-day money-back. Conditional / outcome-based: do the work; no steady qualified leads by day 90 → free coaching until you do.

Value equation

Dream outcome ↑	A predictable pipeline of booked sales calls from ads.
Perceived likelihood ↑	Stats, testimonials, Kasim's agency track record, double guarantee.
Time delay ↓	First optimized campaigns in weeks 3–4; full system in 90 days.
Effort & sacrifice ↓	3–4 h/week, done-with-you setup, plug-and-play templates, AI follow-up.

Value stacking

Product (12 weeks coaching, \$6,000) + System (Google Ads Blueprint & scripts, \$2,500; AI Lead Automation Hub, \$1,997) + Community & support ("Ask Kasim" mentor, \$997; founders community, \$976) = **\$12,470** value → **\$2,997** (or 3 × \$1,099).

Name — MAGIC formula

Magnet: Predictable Pipeline · Avatar: service founders · Interval: 90 days · Goal: clients on autopilot · Container: Accelerator

Scarcity & urgency

Scarcity: only 20 seats per cohort (seat bar on page). Urgency: enrollment closes October 31, 2026 (live countdown).

3 • Inverse interview — 20 questions

Prompt used: *"Ask me the 20 questions you'd need to build me a perfect offer for Kasim Aslam, using Alex Hormozi's Grand Slam Offer."* My answers:

1. **Who exactly is this offer for?**
Founders of service businesses and small agencies (1–20 people) doing roughly \$10k–\$100k/month who already spend on Google Ads or want to start.
2. **What does a normal week look like for them?**
They sell, deliver, answer leads by hand, check the ads account in between, and still end the week not knowing how many clients next month will bring.
3. **What is the ONE problem they would pay to make go away?**
"I'm spending thousands on ads and still can't predict next month's clients."
4. **What have they already tried?**
Freelancers, cheap agencies, YouTube tutorials and a few AI tools. None of it was connected into one system.
5. **Why didn't it work?**
Wrong campaign structure, slow follow-up (leads go cold in hours) and AI tools that run in isolation from sales.
6. **What is the dream outcome?**
A predictable client pipeline: ads that reliably turn into booked sales calls, while follow-up runs on autopilot.
7. **How will they know it is working?**
Cost per qualified lead goes down, booked calls go up, and every client can be traced back to a keyword and an ad.
8. **How fast can they see a first result?**
First optimized campaigns and the AI lead responder live within weeks 3–4; the full system by day 90.
9. **What is the core product?**
The Predictable Pipeline Accelerator: 12 weeks of live coaching with Kasim plus done-with-you setup.
10. **What is the step-by-step system?**
Diagnose (weeks 1–2) → Install AI + Google Ads (weeks 3–8) → Automate & scale (weeks 9–12).
11. **What makes Kasim credible?**
Founder of Solutions 8, author, 50,000+ students trained and 100+ companies scaled (sample figures for this homework).
12. **What bonuses remove the next objection?**
AI Lead Automation Hub (Claude Skill + MCP) so follow-up is automatic; "Ask Kasim" AI CEO mentor for 24/7 answers; a private founders community so nobody quits alone.
13. **What is the biggest objection?**
"I don't have time and I'm not technical." Answer: 3–4 hours/week and every automation is a plug-and-play template set up with them on the calls.
14. **What does it cost and why is it worth it?**
\$2,997 (or 3 × \$1,099) against a stacked value of \$12,470; one or two new clients pay for it.
15. **What guarantee takes the risk off them?**
14-day unconditional money-back + conditional "results or we keep working": if they do the work and don't have steady qualified leads by day 90, coaching continues for free.

16. Why should they act now (scarcity)?

Only 20 seats per cohort, because Kasim reviews every account live.

17. What is the deadline (urgency)?

Enrollment closes October 31, 2026.

18. What is the name of the offer (MAGIC)?

Predictable Pipeline (Magnet) Accelerator (Container) — 90 days (Interval) for service founders (Avatar) to get clients on autopilot (Goal).

19. What is the ONE action on the page?

"Claim my seat" — email in the hero, full application form in the final CTA.

20. How should the brand feel?

Dark, modern, tech-driven and confident: data + AI, with a lime "go" colour for action and violet for intelligence.

4 • Copy for every section

01 • Hero

Eyebrow: 90-day accelerator for service founders

H1: Turn Google Ads into a predictable client pipeline in 90 days.

Sub: Kasim Aslam, founder of Solutions 8, installs the exact AI + Google Ads + automation system his agency uses — so every dollar you spend comes back as booked calls, not guesswork.

CTA: [Your best email] → Claim my seat

Bullets: Live weekly coaching · Done-with-you setup · Results-or-we-keep-working guarantee

The hero section features a dark blue background. At the top left, a small green badge with a star icon says "90-day accelerator for service founders". The main headline reads "Turn Google Ads into a predictable client pipeline in 90 days." with "predictable" in green, "client pipeline" in blue, and "90 days" in white. Below the headline, a paragraph states: "Kasim Aslam, founder of Solutions 8, installs the exact AI + Google Ads + automation system his agency uses — so every dollar you spend comes back as booked calls, not guesswork." Below this is a form with a placeholder "Your best email" and a green button labeled "Claim my seat →". To the right of the text is a portrait of Kasim Aslam, a man with long dark hair, smiling. Overlaid on the portrait are two data callouts: one in the top right corner showing "38 calls booked this month" with a calendar icon, and another in the bottom left corner showing "+212% qualified leads" with a green upward arrow icon. At the bottom left of the hero section, there are three bullet points, each with a green checkmark icon: "Live weekly coaching", "Done-with-you setup", and "Results-or-we-keep-working guarantee".

02 • Social proof

50,000+ students trained · 100+ companies scaled · 2× bestselling author · 99.4% client satisfaction

As seen in: Forbes · Entrepreneur · Marketing Summits · Agency Publications

The social proof section has a dark blue background. It features four large statistics in a row: "50,000+" in green, "100+" in blue, "2×" in green, and "99.4%" in blue. Below each statistic is a smaller label: "Students trained", "Companies scaled", "Bestselling author", and "Client satisfaction". At the bottom, a horizontal line of text reads "AS SEEN IN" followed by "Forbes", "Entrepreneur", "Marketing Summits", and "Agency Publications".

03 • Problem

H2: “I’m spending thousands on ads and still can’t predict next month’s clients.”

If that sounds like you, it isn’t your effort. It’s the system.

- **Burned budget** — campaigns built on guesswork.
- **Leads go cold** — follow-up depends on you remembering.
- **AI that doesn’t sell** — tools running in isolation.

THE PROBLEM

“I’m spending thousands on ads and still can’t predict next month’s clients.”

If that sounds like you, it isn’t your effort. It’s the system — and 90% of founders get stuck in the same three places.

Burned budget

Campaigns built on guesswork.
Money goes out every day with no clear link to revenue.

Leads go cold

Leads sit in an inbox for hours.
Follow-up depends on you remembering — so most never get it.

AI that doesn’t sell

You’ve tried the tools. They run in isolation and never turn into customers or cash.

04 • How it works

H2: Three phases. Ninety days. One system that runs without you.

01 Diagnose (weeks 1–2) · 02 Install (weeks 3–8) · 03 Automate & scale (weeks 9–12)

HOW IT WORKS

Three phases. Ninety days. One system that runs without you.

01 Diagnose Weeks 1–2

We reverse-engineer your account, offer and funnel to find exactly where the money leaks.

02 Install Weeks 3–8

Proven Google Ads structures plus AI that qualifies every lead the moment it lands.

03 Automate & scale Weeks 9–12

Follow-ups, CRM updates and reporting run on autopilot. Then we turn up the budget.

05 • Benefits

H2: Stop guessing. Start knowing.

Measurable ROI on every dollar · 40% fewer operational hours · Clients on autopilot · You own the system

WHAT CHANGES FOR YOU

Stop guessing. Start knowing.

Measurable ROI on every dollar

You'll know which keyword, ad and landing page produced each client.

40% fewer operational hours

AI answers, qualifies and follows up — you only talk to people ready to buy.

Clients on autopilot

A pipeline you can forecast, so you can hire and invest with confidence.

You own the system

Every campaign, automation and template stays yours after the 90 days.

06 • More social proof

H2: Real systems. Real numbers.

"In 90 days we automated what used to take years to do by hand." — Laura M.

"We cut our customer acquisition cost by 35% in the first month." — Daniel R.

"The AI framework gave us clarity no consultant had before." — Priya S.

FOUNDERS WHO DID THE WORK

Real systems. Real numbers.

★★★★★
"In 90 days we automated what used to take years to do by hand."

08 • Guarantees

H2: Two guarantees. We carry the risk.

14-day money-back — no questions.

Results or we keep working — do the work; no steady qualified leads by day 90 = free coaching until you do.

ZERO RISK ON YOUR SIDE

Two guarantees. We carry the risk.

14-day money-back

Join, attend the first calls, open every template. If it isn't the right fit in the first 14 days, you get every dollar back. No questions.

Results or we keep working

Do the work — attend the calls and launch the campaigns. If you don't have a steady flow of qualified leads by day 90, we keep coaching you for free until you do.

5 • Brand system

Logo & favicon

A gradient "A" (for Aslam), inspired by the alternative-logo template in the course material. Minimum viable logo: one letter, one gradient.

Colour palette (3 colours)

Font pair (Google Fonts)

Space Grotesk — headings

Inter — body text. The quick brown fox jumps over the lazy dog.

Icon set

Lucide (open-source, ISC license) — one consistent set used everywhere: flame, hourglass, target, clock, repeat, shield-check, workflow, bot, users, badge-check, handshake, star, arrow-right...

Images

Portrait: provided in the course material. The other three: AI-generated (prompts in section 6). No images from Google Search.

6 • Prompts used

Master prompt (page build)

Build a single-page, dark-themed landing page (plain HTML + CSS + JS, no framework) for "The Predictable Pipeline Accelerator" by Kasim Aslam, founder of Solutions 8.

Offer: a 90-day program for service founders doing \$10k-\$100k/month that installs AI-powered Google Ads + lead automation so ad spend turns into a predictable pipeline of booked calls. One audience, one offer, one action: "Claim my seat".

Brand system:

- Colours: Ink #07090B (background), Lime #7CE040 (CTA/action), Violet #5B6CFF (accent).
- Fonts: Space Grotesk (headings) + Inter (body) from Google Fonts.
- Icons: Lucide icon set only. Logo: gradient "A" mark (lime to violet) + favicon.
- Images: assets/profile.jpg (Kasim) + 3 AI-generated images in the brand palette.

Sections, in this order, using the copy I wrote:

1 Hero (promise + email form) 2 Social proof (4 stats + "as seen in") 3 Problem (3 cards)
4 How it works (3 phases) 5 Benefits (4 items + image) 6 Testimonials (3 quotes + image)
7 The offer (value stack + price card, seats left, countdown to Oct 31 2026)
8 Guarantees (14-day money-back + results-or-we-keep-working) 9 FAQ 10 Final CTA form.
Add a floating "Ask Kasim" AI-simulation chat widget, a scarcity banner, scroll-reveal animations, a mobile-first responsive layout and accessible labels.

Image prompts

img-dashboard.jpg (AI-generated)

Photorealistic wide shot of a modern dark home office at night: a founder's desk with a large ultrawide monitor showing a sleek dark analytics dashboard with glowing lime-green (#7CE040) and electric blue-violet (#5B6CFF) line charts trending upward, ad campaign metrics, a laptop, a coffee mug, soft ambient neon glow in lime green and violet, deep black background, cinematic lighting, shallow depth of field, no people, no readable text, no logos.

img-cohort.jpg (AI-generated)

Photorealistic image of a small diverse group of five business founders in a dark modern workshop room, sitting around a table with laptops, collaborating and smiling, a large screen behind them showing an abstract glowing flow diagram of connected nodes in lime green (#7CE040) and blue-violet (#5B6CFF), moody dark background with subtle lime and violet rim lighting, cinematic, candid, no readable text, no logos.

img-automation.jpg (AI-generated)

Abstract 3D render illustrating business automation: glowing translucent glass nodes connected by light streams flowing left to right, representing leads flowing through an AI system into results, colors lime green (#7CE040) and electric blue-violet (#5B6CFF) on a pure deep black (#07090B) background, soft bloom, elegant, minimal, high detail, no text, no logos.

Logo prompt

Minimal logo mark: a bold geometric letter "A" with a notch on the right leg, filled with a diagonal gradient from violet #5B6CFF (bottom-left) to lime #7CE040 (top-right), two small lime triangle accents, flat vector, transparent background. Favicon: the same "A" on a rounded dark #07090B square.
